As data professionals  
this is not only  
important for creating  
better workplaces BUT  
ALSO contributes to  
more representative  
and socially just data  
practices.

It's hard to be  
what you can't  
see. The power  
of mentoring.

For every aspiring  
Data Scientist: Be  
yourself, be  
confident and  
never stop being  
curious.

We are no longer  
trying to convince  
the world that tech  
needs women, we  
are saying: “Our  
time has come!”

**WOMEN IN DATA SCIENCE**  
SYDNEY

Data science  
doesn't have a  
gender, data  
science is about  
using data to  
solve problems.
